BOXING

Two package versions are being marketed: two boxes of cartridges and games, respectively.

Intellivision cartridges

The cartridges used are somewhat unusual, rather than the standard 16-bit cartridge edge (it looks like two 8-bit cartridges combined). The format used is Intellivision's own format. (Purpose left at my desk.)

Intellivision game 'The Great Escape' showing a character in a yellow shirt and a character in a green shirt standing in a room.

Intellivision game 'The Great Escape' showing a character in a yellow shirt and a character in a green shirt standing in a room.

- Two player game
- Two player game (one player is a character, the other is a character)
